INTraining

Welcome to INTraining, Indiana's resource for information on training that could lead to a new or more rewarding career.

INTraining presents a broad and diverse selection of occupational training programs that support the employment goals of Indiana's workforce. INTraining is comprised of two lists: INTraining and the Eligible Training Provider (ETP) list.

The INTraining list is an inclusive list of all training provider applicants whose training programs meet the basic application standards set by the State of Indiana Department of Workforce Development (DWD).

The ETP list is a subset listing of INTraining providers whose training programs meet additional demand and performance criteria set by the Workforce Innovation and Opportunity Act (WIOA) and DWD. These programs are eligible for WIOA funding through the local WorkOne office.

ETP programs are indicated with the following icons:

🟠 Funded only in certain areas

🟢 Funded statewide

INTraining allows users to search by provider, location, or program to help find the educational program that best suits the needs of the student(s). Begin the search by using the search criteria below. To only view the ETP list, please utilize the "Refine Search" and select the appropriate options.
